T2 Dredging 2012 Summary.pdf

Chip and Kristine,

This message provides notification to EPA of maintenance dredging coordination for the planned activities at the Marine Terminal 2 pursuant to the Administrative Order on Consent (AOC) for the Remedial Investigation/Feasibility Study (RI/FS) for the Portland Harbor Superfund Site (Site). The AOC requires respondents to notify EPA of dredging activities being undertaken for the Site during implementation of the RI/FS (see Section 6, Task 4 under the Statement of Work).

Please find attached a summary of the Port's planned 2012 maintenance dredging and other relevant information for our Marine Terminal 2. The planned maintenance dredging is to be conducted under a Corps permit and Department of State Lands permit. Today, the Port provided a Sampling and Analysis Plan to the Portland Sediment Review Group (PSET) of the planned activities.

Please contact me should you have any questions regarding this planned project. Thank you.

Regards,  
Kelly
